### Carter's Landing

Carter's Landing is a alongside Oxbow Reservoir, which is the smallest reservoir between Hell's Canyon Reservoir and Brownlee Reservoir. Oxbow Reservoir got its name from the early settlers who thought it resembled the U-shaped collar around an ox's neck.

Carter's Landing offers a great place to take the family for a weekend of fun and relaxation. With all the shade trees and easy water access, it is just a fun place to go.
